McLane Advanced Technologies Now on LOGWORLD

Temple, TX

On September 1st, 2008, McLane Advanced Technologies, LLC was awarded a contract under the Logistics Worldwide Schedule 874V (LOGWORLD). LOGWORLD is a U.S. General Services Administration (GSA) schedule focused on assisting federal agencies in procuring comprehensive logistics solutions. For those not aware of contract vehicles, the GSA schedules are mechanisms by which government agencies can contract for specific services with government contractors. "LOGWORLD is a vehicle for MAT to provide quality logistics training services to Federal Agencies", said Robert Reeves, MAT President.

According to the GSA website:

Under the GSA Schedules (also referred to as Multiple Award Schedules and Federal Supply Schedules) Program, GSA establishes long-term government-wide contracts with commercial firms to provide access to over 11 million commercial supplies (products) and services that can be ordered directly from GSA Schedule contractors or through the GSA Advantage!® online shopping and ordering system.

GSA Schedules offer customers direct delivery of millions of state-of-the-art, high-quality commercial supplies and services at volume discount pricing. The Schedules & Other Supplies & Services page lists commercial supplies and services available under GSA Schedules and other GSA contracts. All customers, even those in remote locations, can order the latest technology and quality supplies and services, conveniently, and at most favored customer prices. GSA Schedules also offer the potential benefits of shorter lead-times, lower administrative costs, and reduced inventories. When using GSA Schedules, ordering activities have the opportunity to meet small business goals, while promoting compliance with various environmental and socioeconomic laws and regulations.

MAT's current contract on LOGWORLD is for Logistics Training Services (SIN 874-505) and Disaster Recovery Purchasing of Logistics Training Services (SIN 874-505RC). Logistics Training Services include training in software system operations, property and inventory management, supply chain management, and maintenance of equipment and facilities supporting these activities. In addition, MAT can provide Computer Based Training and Web-based training.

To contract with MAT please use MAT's contract number on LOGWORLD: GS-10F-0344U. MAT was also awarded an Information Technology (GSA IT-70) schedule in 2004. To learn more about GSA and all the schedules that are available, visit www.gsa.gov.

McLane Advanced Technologies, LLC provides both government and commercial information technology and logistics services. MAT serves U.S. military, government, and commercial customers throughout the world.
