MAT Welcomes David Rutland as Director of Information Technology

TEMPLE, TEXAS.

McLane Advanced Technologies (MAT), a Temple-based Information Technology and Logistics Company, has announced the promotion of David B. Rutland to Director of Information Technology. David joined McLane Advanced Technologies in 2008 and is currently responsible for the implementation of accounting systems for MAT and McLane Group. "We are very pleased to welcome David to McLane Advanced Technologies," said Chuck Costanza, CEO. "He brings to MAT years of experience in managing IT operations."

David came to MAT from McLane Company, where he spent 17 years in a number of leadership roles. There he was responsible for the development of application systems and integrated solutions for both the Grocery Distribution and Foodservice business units, including Finance and Accounting projects, HR (PeopleSoft), Product Distribution, Procurement, Inventory and Billing, Route Management, and multiple Customer and Vendor software applications. Prior to McLane Company, David also worked as an Analyst with E-Systems (now L-3 Communications, Integrated Systems) on projects for the United States Air Force and the US Customs Service (Air Branch).

David's educational background includes a Bachelor of Science in Computer Science from East Texas State University (now Texas A&M, Commerce). He has over 27 years experience in the IT industry with more than 20 years extensive experience in project management. David and his wife Patricia, reside in Temple. They have two daughters, Jessica, a recent graduate of the University of Texas, who lives and works in Austin, and Abigail, a freshman at Howard Payne University.

MAT is a services-based, technology company offering a unique blend of commercial, military, and government information technology and logistics experience. For more information, please visit our website at: www.mclaneat.com or call 254-770-6165.
