McLane Advanced Technologies Ranks No. 377 on the 2009 Inc. 500 with Three-Year Sales Growth of 670.9%

Temple, TX – *Inc.* magazine recently ranked McLane Advanced Technologies (MAT) No. 377 on its 28th annual Inc. 500, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. Companies such as Microsoft, Zappos, Intuit, GoDaddy, Under Armour, Jamba Juice, American Apparel, Oracle, and hundreds of other powerhouses gained early exposure as members of the Inc. 500.

MAT provides information technology and logistics products and services to military, government, and commercial clients around the world. Since its inception in 2004, MAT has grown to employ more than 420 personnel worldwide. These employees come from many different backgrounds, ranging from military veterans to commercial software developers. In its short history, McLane Advanced Technologies has implemented many major projects for both public sector and commercial customers. In April of 2004, MAT was awarded a multi-million dollar contract to modernize three of the Army's logistics systems. The project, known as Standard Army Maintenance System-Enhanced (SAMS-E), has been fielded to more than 14,000 users worldwide.

"If you want to know which companies are going to change the world, look at the Inc. 500," said *Inc.* editor Jane Berentson. "These are the most dynamic, fast-growth companies in the nation, the ones finding innovative solutions to problems, creating smart systems, and inventing products we soon discover we can't live without. The Inc. 500 list is *Inc.* magazine's tribute to American business ingenuity and ambition.

The companies on this year's list are responsible for creating more than 55,000 jobs since their founding, making the Inc. 500 perhaps the best example of the impact private, fast-growing companies can have on the overall U.S. economy. Complete results of the Inc. 500, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on Inc.com.

Methodology

The 2009 Inc. 500 measures revenue growth from 2005 through 2008. To qualify, companies must have been founded and generating revenue by the first week of 2005, and therefore able to show four full calendar years of sales. Additionally, they had to be U.S.-based, privately held, for profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2008. The minimum revenue required for 2005 is \$200,000; the minimum for 2008 is \$2 million.
